- Root Canal
- Retreat
- Tooth #'s _____
- Post Space YES NO
- Apicoectomy
- Vitality Test

Orthodontist Dr. Debra Alavi

- Consultation
 - Phase 1
 - Braces

What do I need to bring to my first consultation?

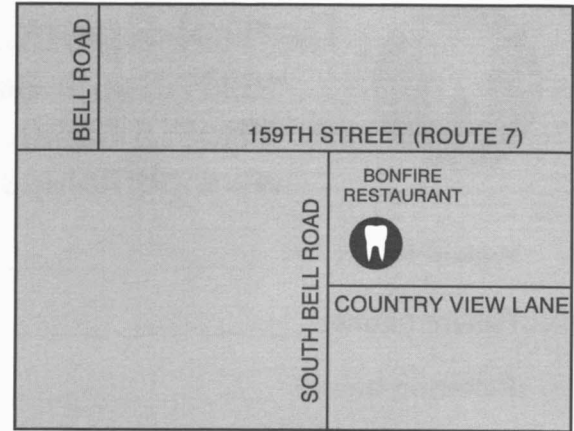

- This referral slip, as well as any x-rays you might have
- If you are taking any medications, please prepare a list of all current medications
- Medical and dental insurance cards
- Your ID or driver's license
- You can print and fill out all patient forms before your visit. These can be downloaded directly from our website, www.dentalspecialistsofhomerglen.com

What do I need to do before the procedure?

- For local anesthesia, or Novocaine, you may eat and drink normally prior to the procedure.
- If you are receiving nitrous oxide, refrain from eating or drinking (*including coffee and water*) for 8 hours before surgery.
- Take all your usual medications unless instructed otherwise, using a small sip of water before local anesthesia if necessary.
- Please call Dental Specialists of Homer Glen several days before your surgery to make special arrangements if you have diabetes, artificial joints, a heart murmur or defect, or are on blood thinners other than aspirin.

What happens after the procedure?

- After local anesthesia, most patients are able to safely drive themselves home.
- After nitrous oxide, please arrange for a driver and/or escort to assist you for the entire day of your surgery.
- Patients having oral surgery must have a driver before and after the procedure.
